# MADHAN KUMAR T

*Software Developer Intern | Full Stack, AI & IoT*

Chennai, Tamil Nadu | +91 81484 96380 | madhannarayanan.t@gmail.com | github.com/Madhan310301 | linkedin.com/in/madhankumart

## EXECUTIVE SUMMARY

CSE undergraduate at BIHER (CGPA 9.5/10) building full-stack, AI, and IoT applications across React, Node.js, Python, and ESP32. Delivered 12+ projects, including a hackathon-winning IoT child-safety wearable and a real-client pharmacy management system. Recognized as a Google Student Ambassador and selected as an HCLTech Campus Ambassador, with a track record of end-to-end ownership, clear communication, and fast execution.

## EDUCATION

**B.Tech, Computer Science & Engineering — BIHER, Chennai • CGPA: 9.5/10.0** *2024 – 2028*

**Higher Secondary Certificate (Class 12) — Dawn Shikshalaya Public School • 86.80%** *2024*

**Secondary School Leaving Certificate (Class 10) — Dawn Shikshalaya Public School • 78.80%** *2022*

## TECHNICAL SKILLS

**Languages:** C, C++, JavaScript, TypeScript, Python
**Frontend:** React.js, HTML5, CSS3, Tailwind CSS
**Backend:** Node.js, Express, REST APIs, Supabase
**Databases:** MongoDB, MySQL, PostgreSQL
**AI / ML:** CNN, OpenCV, scikit-learn, TensorFlow, LLM APIs
**IoT:** ESP32-C3, GPS, MPU6050, GSM, Arduino
**Tools:** Git, VS Code, Blender Python, Figma

## LEADERSHIP & CAMPUS AMBASSADOR ROLES

**HCLTech Campus Ambassador** | HCLTech *2026 – Present*

- Selected to represent HCLTech within BIHER's student community, promoting its career, internship, and innovation programs.
- Organize awareness sessions and serve as a liaison between HCLTech's outreach team and the student body, sharing updates on hiring drives and developer initiatives.

**Google Student Ambassador** | Google *GSA 2026*

- Represent Google programs and products within BIHER's student community, organizing developer workshops, tech talks, and product demos.
- Serve as a bridge between students and Google's developer ecosystem (GDG, Gemini, Cloud).

**Event Coordinator** | BIHER, Chennai *2024 – Present*

- Plan and run technical workshops, inter-batch events, and club initiatives.
- Handle team logistics, communication, and student participation across the CSE batch.

## ACHIEVEMENTS

**Lead Builder & Presenter — Genesis Hackathon 2026** | SRMEEC Chennai *2026*

- Built SafeGuard AI, an IoT child-safety wearable with GPS tracking, fall detection, GSM alerts, and an RBAC dashboard spanning hardware, web, and 3D animation.
- Led end-to-end development and delivered an investor-style pitch; won Overall Second Prize and Domain-Wise First Prize.

## SELECTED PROJECTS

**SarvaJeevaID** • *React, TypeScript, Supabase, PostgreSQL*

- Built a role-based identity platform with secure authentication, multi-role access control, and real-time data sync.

**AI Financial Coach** • *React, Python, scikit-learn, Flask, PostgreSQL*

- Developed an AI-driven financial planning platform with expense prediction, spending-pattern analysis, and personalized investment recommendations.

**AI Cloud-Edge Healthcare Framework** • *React, Node.js, MongoDB, Python ML*

- Developed a distributed health-monitoring system with predictive alerts and 25% lower API latency.

**Pharmacy Medicals App** • *React, Node.js, Express, MongoDB*

- Built a real-client pharmacy system with inventory management, billing, and a customer-facing online ordering interface.

**ML Machine Health Tracker** • *Python, scikit-learn*

- Developed a predictive maintenance model with anomaly detection, reducing simulated downtime by 20%.

**Additional builds:** AI Renovation Agent, AI Progress Tracker, AI Document Reader, SafePath AI, Hostel Website.
